UNIT BUILDING SYSTEM - WITH PVC COVER PLATES
INSERTED IN: PLASTIC PROFILE RODS AND STREAM-
LINED PROFILES.

NEW

Unit building system has PVC cover plates inserted in plastic profile rods and stream-lined profiles, the plates being square and having two grooves on their edges so that they can be fitted together after mounting the profiled rods. The plates possess different stamped shapes and have a control opening through which a light source can be projected and air can circulate.

ADVANTAGES

Excellent stability. Easily varied in construction.
Good weather resistance. Simple construction. Low expansion coefficient.

SPECIFICALLY

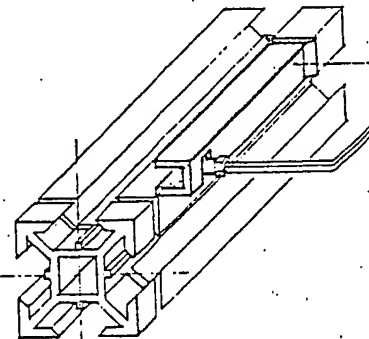

Plastic door hinges can be fitted into and gripped firmly by the profile rods and streamlined profiles. The profiles possess outer contact grooves arranged in pairs.

A4-E2E1, A12-R1.

2

79

two contact pins, and two guide sockets on the core for plugs or lamp bulbs. The grooves, contact pins and guide sockets are connected by a conductor.
